Venues are slopes in the **Rhön**. This is the collective name for some hundred mountains in the centre of Germany, with the city of **Fulda** in the West. The new organisation team analysed the different contests of the 2008 European Champs and searched for new flying sites. For the World Championships 2009 good slopes facing all wind direction are assured. Venue for wind from the south will be the famous „Weltenseglerhang“ at the **Wasserkuppe**. For all other wind directions slopes in the vicinity of the villages **Kaltensundheim** and **Kaltenwestheim** are available, some of them were newly made available.

On average, **September** offers the most stable weather conditions in this region of Germany. Therefore the Championships will take place again in early fall. Let's hope for good weather, this time!

Taking into account the experiences gained during the European Championships, the organisation team has been considerably enlarged. Host of the World Championships 2009 is the "Gesellschaft zur Förderung des Segelfluges auf der Wasserkuppe e.V.- GFSS e.V." (Society for Promoting of Gliding at the Wasserkuppe). The German Aero Club (DAeC) officially authorised the GFSS to organise the event. **Patron** is Mr. Bernd Woide, district administrator (Fulda) and president of the Society for Promoting of Gliding at the Wasserkuppe.

F1E Teams of all countries with FAI membership are welcome to enjoy the fascinating nature reserve of the Rhön, the region of the open distance.

The Office to turn to is run by Michael Thoma, executive secretary of the Aeromodelling Commission of the DAeC, Hermann-Blenk-Str. 28, 38108 Braunschweig, m.thoma@daec.de phone +49-531-23540-56, fax +49-531-23540-11

Contest Director will be Klaus Salzer (AUT)

Event Director and person to turn to in the region Jürgen Schild (GER)
